Hiring Manager
Human Resources

Dear Hiring Manager,

I am excited to apply for a position within your organization, particularly in the fields of IT, digital operations, or multimedia support. I recently earned my Bachelor of Science in Information Technology and bring hands-on experience in multimedia design, technical support, and customer service - a combination of creativity and technical skill that I believe would add value to your team.

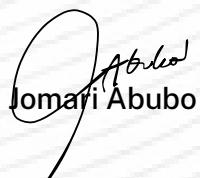

In my role as a Multimedia Marketer at LAB8 Diagnostic Laboratory, I created engaging visual content, managed brand communications, and collaborated across departments to deliver consistent marketing campaigns. This strengthened my proficiency in design tools, project coordination, and working under tight deadlines.

As a Sales Representative and Technician at NWOW eBike, I gained practical expertise in troubleshooting, diagnostics, and customer service - enhancing my problem-solving skills and technical adaptability. My diverse work background, including roles in sales, stock management, device repair, and logistics, has instilled in me a strong work ethic, attention to detail, and the ability to thrive in team-based environments.

I am drawn to companies that value innovation, efficiency, and collaboration. With a solid IT foundation and versatile experience in both technical and creative roles, I am confident in my ability to contribute effectively to your operational, digital, or IT support needs.

Thank you for considering my application. I welcome the opportunity to discuss how my skills and experiences can support your company's goals. My resume is attached for your review.

Sincerely,

Jomari Das Abubo
